

Krishnan Ranganathan
Co-Founder, Udhyam Learning Foundation
Director, Udhyam Vyapaar

Bio:

Krishnan is a co-founder at Udhyam Learning Foundation and heads the Udhyam Vyapaar vertical.

In 2017, after 13 years in the corporate world, Krishnan found his passion for education, entrepreneurship and real-world experiential learning come together harmoniously in the vision for Udhyam. In the last 6 years at Udhyam, he led the Udhyam Shiksha program for 3 years taking it from impacting 500 students per year in 1 state to over 10 lakh students per year spread across 10 states in the country. His current mission at Udhyam Vyapaar is to make millions of low-income earning Vyapaaris across the country more successful.

Having been an operations and strategy freak for a long time, he claims to have lived a large part of his life as a head and hands person, with heart making a very late entry. He credits a lot of his inner growth to his leadership experiences at Udhyam. Krishnan loves data and numbers. Put him in front of numbers and he can keep staring at them for hours. Outside of work, his interests are family, sports and spirituality, and every single day he looks forward to spending quality time with his 2 daughters.
